

# 2015 Men to Watch

The Denture  
Clinic

Denturists Ron Postings,  
Robin Postings, and Tan Nguyen  
on the benefits of going  
above and beyond.

The Denture Clinic

Sidney: #3 - 2227 James White Blvd | 250.655.7009  
Victoria: 3937 Quadra St | 250.383.7227

*Tan Nguyen answers:*

**What is your business best**

**known for and why?** We are known for our great service and quality denture treatments. We believe that a smile can make a difference in a person's life so we provide the best care we can offer. We also understand that some patients, due to mobility issues, are not able to make a visit to the clinic. For these special patients we do offer house call visits.

**We celebrate Father's Day in**

**June. What is the best advice your**

**dad ever gave you?** Growing up, I saw my father work very hard to provide for our family. He told me that hard work,

integrity and perseverance will always pay off. After a few years of schooling and practicing in Toronto my hard work did pay off once I became an associate Denturist at the Postings Denture Clinic.

**Three words other would use to describe you? Three words you would use to describe yourself?**

Others would describe me as positive, hard-working, and friendly. I think I would use the same words. I always keep a positive outlook in any work

situation and make sure I exert myself 100% in my profession.

*Robin Postings answers:*

**What if anything, has changed in your business within the last**

**year?** In March 2014 we were fortunate to add Tan Nguyen as an associate to give us three fully licensed Denturists. With our business growing this gave us the ability to extend our hours, and be available on weekends by appointment and offer home and hospital visits.

**Can you give us a glimpse into some of the future plans for Postings Denture clinics?**

As we continue to grow myself, Ron Postings, and Tan Nguyen we plan on continuing to provide the best service possible for our clients. We achieve that by going above and beyond, continuing education, and providing quality treatment plans. We provide everything from standard and precision full dentures, partial dentures, and dentures over implants. Ask us about our free consultations.
